## OGDEN EXAMINER IS CALLED DOWN BY THE SCHOOL BOARD

Resolutions Passed Calling for a Reporter Who Will Furnish a Correct Report of School Board Meetings—Mills Granted Leave of Absence With Full Pay, Provided He Meets His Own Expenses—Mills Confesses He Wants to Go Back East and Learn Something.

A bombshell was thrown into the school board meeting last evening when the following resolution was introduced and unanimously adopted, asking the Ogden Examiner to send some other reporter to report the meetings of the school board:

The Resolution: "Whereas, during the last six weeks there have appeared in the local columns of the Morning Examiner erroneous and misleading statements concerning proceedings of the Board of Education of this city; now, therefore, be it

Resolved, that the Clerk of this Board ask the manager of said Examiner to assign a reporter to attend the meetings of this Board, who will furnish said paper with a correct statement of the proceedings of the meeting of this Board."

The public will remember that the Standard repeatedly called attention to the fact that the local reporter for the Ogden Examiner of the meetings of the school board were false and misleading, so much so that the public commented upon the different views presented by the Standard and Examiner. The Examiner reporter reported everything as if Superintendent Mills was riding roughshod over the school board, while the Standard report was the reverse. After the above resolution was passed by the board of education last night the managing editor of the Examiner was notified of the passage of the resolution and he immediately called upon the school board members who had adjourned from the school office to the Weber club. After an hour and a half interview between the Examiner's managing editor and the school board members, in which the Examiner claimed the school board should have called the Examiner's attention to the alleged misrepresentations maintaining that the paper would promptly have corrected the same, an agreement was entered into between the board and the managing editor of the Examiner by which the board agreed to withdraw the resolution on condition that the Examiner assign another reporter to the school board meetings and that the reporter by the name of Gates should no longer report any school meetings for the Ogden Examiner. Accordingly, the clerk of the school board was instructed to withdraw the resolution and not to enter the same on the records, but a Standard man saw the resolution before it was withdrawn from the official minutes, and we publish it in full as above given.

Under ordinary conditions, the Standard would not have reproduced the resolution, but owing to the fact that the reports between the Examiner and Standard have been directly at variance and as some people were in doubt as to which report was true and accurate, the Standard feels it is justified in placing this story before the people in order to show that the Standard reports were true and correct.

The Standard fully realizes that a newspaper reporter often can place a newspaper in bad light. The Standard has had experience in that line and knows that reporters have at times positively misrepresented the Standard's service. We do not hold the Examiner management or its owners responsible for the misrepresentations made by this individual reporter because it appears they implicitly trusted Reporter Gates, and in view of the fact that the Examiner promised the School Board that they would put a stop to further misrepresentation; that they would not permit it, if they knew it, we are inclined to judge the Examiner by its future action in regard to the matter and take it on its good faith. The owner, proprietor or manager of a newspaper cannot personally inspect each news item and investigate it before publication. He must trust his numerous employees. For that reason the Standard prefers to believe that the reporter on his own responsibility misrepresented the news in favor of Mr. Mills and against the school board.

Moral, get the Standard if you want the news truthfully told.

Further Proceedings of the Board. With a brief motion, the city board of education last night granted Superintendent J. M. Mills leave of absence to attend the annual convention of Superintendents to be held at Detroit, Feb. 22 to 26, providing that the official make the trip at his own expense.

The motion brought a response from Mr. Mills just before the adjournment of the meeting, in the following communication:

"Gentlemen:—Admitting that you have no other desire than to work for the upbuilding of the schools, and confessing that this is my only ambition, I am ready, willing and anxious to accept of your kindness and as your representative in Detroit, paying my own expenses, on the one proviso that you will allow me to put what I learn there into effective operation in Ogden, or else there is no reason for my going. As a safeguard to you, however, I would be willing that my plans before being adopted should be submitted to any fair body of people, either principals, teachers or residents of Ogden or some other place, or any body of educators. With these provisions I shall gladly pay my own expenses and go. Respectfully,

"JOHN M. MILLS, Superintendent."

Aside from a remark by Director F. E. Williams, that the communication should not be answered at the present time, it was filed without discussion.

Water Meters. A reply to the request of the school directors made a week ago, that the city commissioners authorize the placing of water meters in the school buildings, was read at the meeting. It contained a recommendation from the head of the city waterworks department to the city commission, that the request be granted provided the school board would have all pipes ex-

tended in the buildings so that the meters could be placed ahead of all hydrants or taps and that the water inspector be provided with a key to each building.

Moving Picture Money. A communication from Rudie Maltzan, a local resident, on the question of installing a printing plant at the high school, including a price list of equipment, was submitted to the school board and referred to the teachers' committee.

R. L. Tomlinson, boiler inspector of the school system, reported, having completed his regular inspection, finding the boilers in all of the school heating plants in good condition.

The request made by the Child Culture club some weeks ago for the refunding of the \$100 invested by the club in a moving picture machine for the schools, was again brought to the attention of the board last night, by the clerk. The refund was authorized, without comment.

Schools Heavily in Debt. In a report made by Director Wade Johnson as to the probable financial deficit the school system would face at the end of the present term, it was estimated that about \$20,000 would have to be borrowed before July 1st, to meet expenses. This finding was based on a comparative table of revenues and expenses for last year.

A petition from Captain W. E. Kneass that application be made to the United States government for military supplies to be used by the Ogden high school cadets, was referred to Directors W. H. Williams and Wade Johnson, with power to act. The supplies will include arms and ammunition, which will be furnished from the national arsenals in compliance with an order of congress.

All the Salt Lake and Ogden morning papers suppressed the resolution passed last night. If the board had condemned the Standard the story would have been told in big type. Why?

UTOPIA CLUB. The Utopia club will meet, February 23 with Mrs. W. F. Madsen, 2648 Barlow avenue.

IN COMPLIMENT TO VESTA SPAUN. Miss Vesta Spaun, whose marriage to C. E. Farr of this city will occur in March, was the inspiration for a pretty event, last evening, a china shower, at which Mrs. Frank Stephens, 440 Twenty-eighth street, was hostess.

The Stephens' home was especially pretty with myriads of pink and white cups and saucers and festoons of smilax. In the dining room where a delicious course luncheon was served, the table was attractive with festoons of cups and hearts intertwined with smilax radiating from the chandelier to four corners of the table. The central decorative piece was a "sea of matrimony" with tiny light houses. At each corner of the table were placed the miniature guides to wayfarers of the sea.

The guests were received from 8 until 11 o'clock and brought with them many lovely pieces of china, which were presented to the bride-to-be.

Those present were: Mrs. Helen Naibart, Miss Vera Naibart, Mrs. A. A. Spaun, Miss Vesta Spaun, Mrs. Mike Doyle, Mrs. S. S. ## OGDENITES ATTEND U. OF U. JUNIOR PROM.

Festive in fraternity banners, pennants and flowers, the entire mezzanine floor of the Hotel Utah, with the ballroom, drawing room and banquet rooms, was given over to the annual junior prom of the University of Utah last evening. In addition to the light refreshments served in the various booths during the evening, a late supper was served in the main dining room of the hotel.

The dance began at 9 o'clock, and the grand march at 10 o'clock was led by Governor and Mrs. William Spry and Mayor and Mrs. W. Mont Ferry. The dance programs were particularly artistic. The covers were of gray suede, lettered in gold, bearing the crest of the university, also in gold. Red and white pensils were suspended to red and white cords. The programs were simply slipped into the covers, and when removed the cover formed a dainty card case, serving for a souvenir of the junior prom of 1916.

Supper was served from 11:30 until 1 o'clock. Hawaiian entertainers amused the guests during supper, and the troubadours furnished music in the supper room. Hawkins' orchestra gave the dance music.

The junior prom committee comprised Louis Gardner, Miss Evelyn Tempest, Miss Agnes Bowen, Miss Mary Godde, Rex Williams and Harlan Walker.

The class officers are Edward Banning, president; Miss Vera Foulger, vice president; Harold Groesbeck, treasurer; Desdemona Stott, secretary.

The patrons were Governor and Mrs. William Spry, Mayor and Mrs. W. Mont Ferry, President and Mrs. J. T. Kingsbury, Mr. and Mrs. W. W. Riter and Mr. and Mrs. John Jensen.

About 600 were in attendance.

Among the Ogden people at the "Prom" were Mr. and Mrs. Laurence Dee, the Misses Esther Seppich, Edith Johnson, Kathrine Hogan, Helen Towne, Edna Towne, Lillian Wright, Marian Wright, Zina Pingree, Rae Barlow, Esther Shurtliff, Katherine McKay, Kathryn Volker, Marian Read, Ruth Douglass, Vera Tracy, Ellen Scowcroft, Dorothea Browning and Ruth Wattis, and Messrs. The exact time has not been decided on but the committee in charge will select a date shortly. It is planned to make the ball one of the leading social events of its kind of the season. The arrangement committee is composed of Jack Harbertson, Joseph Westover and J. Rowse.

CHILDREN OF MARY PARTY. One of the prettiest and most select affairs of the winter social season was enjoyed by about 250 young people last evening in the Knights of Pythias lovely dance hall where the Children of Mary of St. Joseph's Catholic church entertained at their annual dancing party. The hall was made more attractive with flowers and all who were favored with an invitation to the event enjoyed the dancing to its fullest extent. In addition to the main entertainment, delectable refreshments were served.

MRS. DR. WM. PAINE HOSTESS. The Up Early and Late Sewing Club were the guests of Dr. Wm. Paine last evening. Following the usual needlework, the hostess served refreshments.

## "SIX LITTLE CYLINDERS"

We are constantly asked to explain the phenomenal performance of the motor of the Hudson Super-Six.

Vibration and the friction it causes are the foes of all machinery.

To eliminate this vibration is the ideal of every engineer.

Hudson engineers have discovered a way to build a vibrationless Six.

The result?

A car that will attain a speed of 60 miles an hour in 25 seconds from a standing start; a car that will run 75 miles in one hour; a car that will climb the steepest hills at an snail's pace on high gear—a SUPER-SIX—the Hudson!

"That is an event of great importance," the Patris continues. "It requires more than a protest. The Skouloudis government pretends that the measure is a general one directed against all neutral consuls, but there are no other neutral consuls at Monastir. Furthermore, this city has not the same interest for Rumania as to us."

SMELLING SALT NOVELTIES

The woman who likes sweet odors almost always likes smelling salts. The newer ones are packed into bottles of charming shapes. Some of them have very elaborate stoppers—indeed, all the perfume bottles do, too. Wide fan-shaped stoppers are one of the novelties.

Geranium, colored rose, is one of the popular smelling salts odors at the moment.

There are also very attractive sachets covered with chiffon or very fine net, containing an interesting combination of flower odors. The foundation for this is sweet lavender, and there are rose and violet leaves, and spices and oils, so that the combination is something on the order of potpourri. And of course all this sweetness is visible
